

# Contents

- VII Preface
- VIII Note Concerning Images Used in This Book

---

## 1 Chapter 1 Normal CT Images of the Temporal Bone

- 2 1 Infant
- 18 2 Older Child

---

## 35 Chapter 2 Postnatal Growth of the Temporal Bone

- 36 1 External Auditory Canal
- 38 2 Mastoid Air Cells
- 42 3 Internal Auditory Canal
- 44 4 Vestibular Aqueduct

---

## 47 Chapter 3 Congenital Anomalies

- 48 1 External Auditory Canal
  - 48 EAC Atresia and Stenosis
    - 49 Case 1 : Congenital EAC Atresia
    - 52 Case 2 : Congenital EAC Stenosis with Cholesteatoma
  - 56 2 Auditory Ossicles and Middle Ear
    - 56 Congenital Ossicular Malformation
    - 56 Stapes Surgery in Children
    - 57 CT Diagnosis of Ossicular Malformation
      - 57 Case 1 : Ossicular Disruption with Stapes Fixation
      - 59 Case 2 : Ossicular Deformities with Stapes Fixation
      - 62 Case 3 : Ossicular Deformities
      - 65 Case 4 : Oval Window Atresia
      - 66 Case 5 : Skull Base Vascular Anomalies (CHARGE Syndrome)
      - 70 Case 6 : Facial Nerve Anomaly
  - 73 3 Inner Ear
    - 73 Congenital Malformation of the Inner Ear
    - 73 Genesis of the Inner Ear
    - 73 Histopathological Classification of Inner Ear Malformation
    - 73 Classification Based on Clinical Imaging
    - 75 Role of CT and MRI in Diagnosis of Inner Ear Anomalies
      - 76 Case 1 : Michel Aplasia (Inner Ear Aplasia)
      - 81 Case 2 : Cochlear Aplasia
      - 84 Case 3 : Common Cavity Deformity (1)
      - 88 Case 4 : Common Cavity Deformity (2)

- 91 Case 5 : Aplasia of Cochlear Upper Turns and Semicircular Canals with Cochlear Nerve Canal Stenosis
- 94 Case 6 : Incomplete Partition Type I (IP-I): Case of Cochlear Implantation Revision
- 97 Case 7 : Incomplete Partition Type II (IP-II): Mondini Dysplasia (Enlarged Vestibular Aqueduct)
- 102 Case 8 : Incomplete Partition Type III (IP-III)
- 106 Special Article: Incomplete Partition Type III. Levent Sennaroglu, M.D.

## 109 **4 Internal Auditory Canal**

### 109 **IAC Stenosis**

- 110 Case 1 : IAC Stenosis
- 114 Case 2 : Stenosis of Cochlear Nerve Canal
- 117 Case 3 : IAC Malformation, Arachnoid Cyst of Fallopiian Canal

---

## 123 **Chapter 4 Inflammatory Diseases of the Middle Ear**

### 124 **1 Otitis Media and Cholesteatoma**

#### 124 **Eustachian Tube Function and Mastoid Air Cell Development**

- 125 Case 1 : Congenital Cholesteatoma
- 127 Case 2 : Recurrent Otitis Media, Otitis Media with Effusion
- 129 Case 3 : Adhesive Otitis Media
- 131 Case 4 : Acute Otitis Media, Sigmoid Sinus Thrombosis
- 134 Case 5 : Cholesteatoma: Pars Flaccida Cholesteatoma (1)
- 137 Case 6 : Cholesteatoma: Pars Flaccida Cholesteatoma (2)
- 139 Case 7 : Cholesterol Granuloma

### 141 **2 Image Findings after Tympanoplasty**

#### 141 **Classification of Tympanoplasty**

#### 141 **Ossiculoplasty**

#### 142 **Evaluation of Postoperative Results**

- 143 Case 1 : Cholesteatoma, 1 : Good Aeration after Primary Operation
- 144 Case 2 : Cholesteatoma, 2 : No Aeration after Primary Operation
- 146 Case 3 : Cholesteatoma, 3 : Type III Incus Interposition Ossiculoplasty
- 147 Case 4 : Cholesteatoma, 4 : Type III Ossiculoplasty with Long Columella
- 149 Case 5 : Cholesteatoma, 5 : Recurrence

---

## 151 **Chapter 5 Other Ear Disorders**

- 152 Case 1 : Pericochlear Hypoattenuating Foci and Stapes Fixation
- 155 Case 2 : Traumatic Ossicular Disruption
- 158 Case 3 : Cochlear Implant Magnet Trouble after Head Trauma
- 159 Case 4 : Cochlear Implantation in an Ear with Extensive Cholesteatoma
- 162 Case 5 : Meningitic Labyrinthitis

### 165 **Index**

### 169 **Author & Acknowledgments**
